THE BEEFMASTER BREED WAS BORN IN TEXAS (USA) IN THE EARLY 1930s AS BEEF CATTLE BREED. THE BREED FOUNDER SELECTED ANIMALS FROM A CROSSING OF HEREFORD COWS AND SHORTHORN COWS WITH BRAHMAN BULLS, BUT THE EXACT MIXTURE OF THE FOUNDATION CATTLE IS UNKNOWN. THIS BREED HAS BECOME VERY POPULAR FOR CROSSBREEDING.

STRONG POINTS ARE: HIGH HYBRID VIGOR, HIGH IN FERTILITY, LONGEVITY, FEEDING EFFICIENCY, BUT ALSO HIGH ENVIRONMENT ADAPTABILITY, DISEASE RESISTANCE AND MEAT LOW IN FATTY ACID.
